

Dear Patients,

Notice from the Royal College of Dental Surgeons of Ontario:

“The RCDSO strongly recommends that all non-essential and elective dental services should be suspended immediately. Emergency treatment should continue. The College will revisit this recommendation in the first week of April.”

As campaigners of a healthy individual and a healthy society, Dr. Bruce Harle’s team has agreed that a reduced schedule of only essential and emergency dentistry will be maintained at our office between now and April 3rd, pending review by the college.

Our office will be contacting you if you have scheduled appointments during this time to reschedule your appointment.

If you are having a dental emergency, please DO NOT visit a hospital emergency department. Instead, call Jasia/Erica at (613)635-4848 and we will advise you accordingly.

We wish everyone a safe and uneventful few weeks ahead and encourage everyone to keep one another healthy.

Warm regards,
Dr. Bruce Harle and Team
